**Morocco Treaty to Be Signed Monday**  
PARIS, Nov. 3.—In making public tonight a completed draft of the treaty concerning Morocco, the French government has accepted the resignation of Dr. Van Landuyt, secretary of state for the colonies. This resignation is a significant symptom of the unpopularity of the bargain within as well as outside the government and the debate in the richest next Wednesday promises to be a severe ordeal for Chancellor Von Bethmann-Hollweg.

The definition of France's predominant position in Morocco occupies three of the 11 articles of the treaty. The next nine contain a long series of guarantees and precautions to secure equality of all countries and opportunities in Morocco under French domination. The Congo changes are more limited than were first expected. Germany will get only from four to seven miles of the Congo river, sufficient to establish a steamship trading station and a small triangle between the Logone and Shari rivers south of Lake Tchad. Togoland is not mentioned in the treaty.

**N. J. COLMAN SUCCUMBS**  
ST. LOUIS, Mo., Nov. 3.—Norman J. Colman, first secretary of agriculture of the United States, died this morning on a train which was bringing him to his home here. He suffered a stroke of apoplexy yesterday in a sleeping car north near Lexington Junction, Mo.

Mr. Colman was being brought here by a son-in-law. He died near Centerville after being unconscious for nearly 24 hours. After midnight hope for his recovery was abandoned. The body was taken to the St. Louis station.

Mr. Colman was 51 years old. He was a former lieutenant governor of Missouri and had held many public offices. He owned and edited a farm magazine and conducted a model farm and experiment station in St. Louis county. He is survived by two daughters.

**CROSS, SICK, FEVERISH CHILDREN NEED GENTLE, THOROUGH CASCARETS**

Most of the ills of childhood are caused by a worn, disordered stomach, sluggish liver and constipated bowels. They catch cold easily, become cross, listless, night feverish, restless, tongue coated, don't eat or sleep well and need a gentle, though thorough, physic—but don't try to force a nauseating dose of oil into the little ones already sick stomach. It is natural, needless and old-fashioned.

Any child will gladly take Cascarets, which act gently, never irritate or produce the slightest uneasiness—though cleanse the little ones system, sweeten the stomach and put the liver and bowels in a more healthy condition.

Full directions for children and grown-ups in each package.

Mothers can rest easy after giving this gentle, but so much laxative which costs only 10 cents per box.

**FORMAL CHARGE**  
(Continued From Page One.)  
was taken suddenly ill and died under strange circumstances. It developed he had taken out a life insurance policy a short time before in which she was to be the beneficiary.

**Woman Collapsed.**  
Mrs. Vermilya collapsed when informed that the experts had found poison in the viscera of Bissonette, but she showed no concern after recovering, and declined to make any statement.

When first examined after Bissonette's death, Mrs. Vermilya declared that the policeman was engaged to marry her. This was disproved by the discovery later of his will leaving all his property, amounting to about \$1,500, to his fiancée, Miss Laura Rivard, of Minnesota.

Mrs. Vermilya finally was taken ill, suffering from convulsions and appeared to be in almost the same condition that had marked both Smith and Bissonette before they died.

Another surprise was caused last night when she asked permission to call her lawyer and make a will. A doctor was called and announced that she was suffering from pneumonia.

**Worked With Undertakers.**  
Reports received by the police from Peoria, Ill., where Mrs. Vermilya formerly lived, indicated that dead bodies had possessed a morbid fascination for her and that she had informally attached herself to an undertaking establishment there and spent most of her leisure aiding the employees.

This was further established by the discovery of an almost equal friendship for an undertaker here, C. C. Boyson, whose name was brought into the present investigation through his having acted in the funerals of Smith and Bissonette.

Further questioning of several interested parties by Coroner Hoffman tonight disclosed new facts in connection with the death list. A motive for the poisoning was suggested by Archie Bissonette, a brother of the policeman.

In the policeman's effects were found letters from his fiancée, Miss Laura Rivard, of Marshall, Minn., but all were dated prior to their engagement. Absence of any received since then, coupled with the fact that Mrs. Vermilya had access to Bissonette's effects, and her statement that she and the policeman were to be married was suggestive as indicating jealousy as a motive for the poisoning.

**RY. ADVERTISERS**  
(Continued From Page One.)  
the Chamber of Commerce advertising committee introduced Mr. Smith and others who amused the crowd with many anecdotes of railroading and other subjects. The guests expressed themselves as more than pleased with the things which they have seen here, and the many objects of interest which will enable them to advertise this region more advantageously.

Part of yesterday was spent in automobile driving around the city and through places of interest nearby. The Modern Woodmen sanatorium and the Union Printers home were among the places visited.

Today the party will take a trip to Canon City and view the Royal Gorge. They will return tonight in time to be present at the banquet which will be given at the Antlers hotel by the Chamber of Commerce in honor of H. U. Mudge, president of the Rock Island lines, and other officials of that road.

The resolutions presented to the Chamber of Commerce at last night's meeting, are as follows:

**The Resolutions.**  
Whereas The Colorado Springs Chamber of Commerce, having tendered an invitation to railroad advertising representatives to visit the Pikes Peak region—America's Scenic Playground—as its guests during the week of October 30, 1911, and

Whereas The undersigned having accepted the cordial invitation and having enjoyed a most profitable and delightful visit in the Pikes Peak region, and

Whereas We desire to express to the Colorado Springs Chamber of Commerce our most hearty appreciation for its recognition of the value of this branch of railroad activity, therefore be it

Resolved That we, the undersigned railroad advertising representatives, in meeting assembled, hereby extend a vote of sincere thanks to the Colorado Springs Chamber of Commerce for the unusual opportunity afforded to visit the Pikes Peak region, also for the many kindnesses and courtesies shown and the hospitality enjoyed.

**FOWLER GETS TO BISBEE**  
BISBEE, Ariz., Nov. 3.—Coast-to-Coast Aviator Robert G. Fowler, east-bound arrived in Bisbee at 4:50 this afternoon after making a flight from Benson 65 miles from here in 1 hour and 45 minutes actual flying time.

Conditions tonight are not propitious for a flight tomorrow as it is raining, but Fowler announced that unless the storm grew worse by morning he would start at 8 o'clock for Deming, N. M., 177 miles east.

He expects to be in El Paso by Sunday afternoon.

**REMANANT OF GERONIMO'S BAND LAST TO GO HOME**  
WASHINGTON, Nov. 3.—Babies from their home for nearly a quarter of a century, the remnant of Geronimo's band of Apaches, who have been military prisoners at Fort Sill, Okla., may now return to their old hunting grounds in New Mexico. Col. Hugh L. Scott, Third cavalry, who is regarded as closer to the Indians than any other army officer has been selected to conduct this return movement and he is already at Fort Sill in conference with chiefs of the tribe.

A difference of opinion exists among the Indians as to their future. The younger men preferring to remain in Oklahoma and the elders desiring to return to New Mexico where they surrendered to General Miles after one of the most protracted and sanguinary campaigns of Indian warfare.

A feature of the plan for the removal of the Indians from Fort Sill involves the transfer of the bones of the great Chief Geronimo to the new home of the Indians.

**MINERS END CONVENTION**  
POTTSVILLE, Pa., Nov. 3.—The miners convention of districts Nos. 1, 17 and 19 adjourned today after formulating demands to be made upon the operators. Among the demands are:

1. That the next contract be for a period of one year commencing April 1, 1912, a workday of not more than eight hours with no reduction in wages; an advance of 20 per cent on the rate of wages for all employees above the rates awarded in 1907, a minimum rate of \$3.50 per day for miners and \$2.75 for laborers.

**BOYS TRY TO WRECK TRAIN**  
RHINELANDER, Wis., Nov. 3.—After witnessing thrilling scenes of a train wreck, as shown in a moving picture show, three boys aged 12, 9 and 7, heaped railroad ties on the tracks near Weyershauser and then hid nearby with the hope of seeing the actual occurrence. They were rewarded a short time later by seeing a freight train crash into the heavy timbers, but no damage resulted. The boys were caught by the trainmen near the right-of-way and were taken to Minneapolis.

**FRIENDS OF INITIATIVE AND REFERENDUM ARE GETTING ENCOURAGEMENT**

WASHINGTON, Nov. 3.—The critical number in which the supreme court of the United States today listened to arguments, that the initiative and referendum was unconstitutional brought encouragement to the friends of the system. Oral arguments on both sides of the question were completed before the court adjourned for the day.

L. S. Pillsbury of San Francisco and H. C. Dunaway of Portland Ore. were heard in opposition to the method in two Oregon cases. When Mr. Pillsbury remarked that they could not win with the regard for the federal constitution by the governing powers in a state matter, the legislature and the people Justice Lurion interrupted him.

What is a state constitution but an organized act of legislation by the people? inquired the justice.

That is expressly what I meant it to be, responded Mr. Pillsbury.

Then there is legislative power to the people?

To make a constitution yes.

Mr. Pillsbury suggested that the people might put into their state constitution anything not in conflict with the restrictions of the federal constitution.

What are the restrictions which you claim are violated in this particular case? inquired Chief Justice White.

The provision for a legislature.

The chief justice asked him to read it.

I cannot read it. It is implied in a dozen places, said the attorney.

And, also, the constitution has been construed by this court to imply that there must be a legislature.

The chief justice asked for the cases in which the point had been in issue, but the attorney did not give them.

It was further argued that taxes imposed under the initiative method were not "due process of law" and violated "the equal protection of the laws," so long as some persons were taxed under initiative laws and others under legislative laws.

Attorney General Crawford of Oregon declared that the question whether the method violated the guaranty of the United States in the Federal constitution of a republican form of government to every state was a political question for congress to decide, and not a judicial one. He inquired how the court would enforce its decision if congress and Oregon were opposed to it.

**Speak for "Home Rule"**  
Frank S. Grant and William C. Benbow of Portland Ore., spoke in the interest of "home rule." George Fred Williams of Boston argued that only a party to the "guaranty," he states could ask the United States to make good its promise that every state should have a republican form of government. A corporation, he said, could not do so because the guaranty was to the states.

I have heard no state objecting to the Oregon form of government," said Mr. Williams.

Chief Justice White suggested that the word "form" in the constitution left support to Mr. Williams' interpretation of the word "guaranty."

Jackson H. Ralston of this city contended that the opponents of the method were wrong in arguing that the word "republican" was used in the constitution as a synonym for "representative." He argued it was used in contradistinction with "monarchical."

Justice Holmes suggested this interpretation would be in conformity with the rules of logic.

**Will Contend That Some Other Man Gave Linnell Girl Poison**

BOSTON, Nov. 3.—That some other man than his client gave Avis Linnell the poison from which she died, was the assertion today of John L. Lee of Lynchburg, Va., another counsel for Roy Clarence V. T. Richardson who is under indictment charged with the murder. Before Mr. Lee left Boston for his home today to clear up some business affairs, he discussed the Linnell murder briefly.

Beyond saying that he hoped to accumulate enough evidence to satisfy a jury of the guilt of another man, Mr. Lee would not speak of the plans of the defense. The remarks of the attorney were taken as indicating that the defense would not advance the suicide theory to explain the girl's death.

The first authentic protestation of the Roy Mr. Richardson's innocence of the murder of Miss Linnell was made public today when the text of his letter resigning the pastorate of the Third Baptist church was given out. The letter dated November 1 and addressed to Charles F. Cummings, clerk of the church is as follows:

"My dear sir:—I beg to herewith tender my resignation as pastor of Immanuel church. Strong in the consciousness of my innocence, and firmly persuaded that God in his own good time will lift this burden from me, I nevertheless feel that I should not permit the shadow thrown across my life to darken the religious warfare of my church and its people whom I love. I therefore deem it my duty to place the church in a position to select my successor. With my heartfelt thanks for the many kindnesses shown me by each and all the members of my church, I am sincerely yours,

"CLARENCE V. T. RICHMOND"

**CHILD WELFARE EXHIBIT AT KANSAS CITY BEGINS**  
KANSAS CITY, Mo., Nov. 3.—With the purpose of presenting the case of the child's disease and crime so graphically that it cannot be misunderstood, the third child welfare exhibit ever held in the United States began here today to continue for eight days.

The exhibits consisted of motion pictures, statistics, clinics and other things that best present every angle from which the life and condition of the child may be improved. Special attention was given to the welfare of children in the congested districts of large cities. Ventilation, sanitation, pure food and playgrounds were among the subjects considered.

**TO GET RID OF RHEUMATISM**

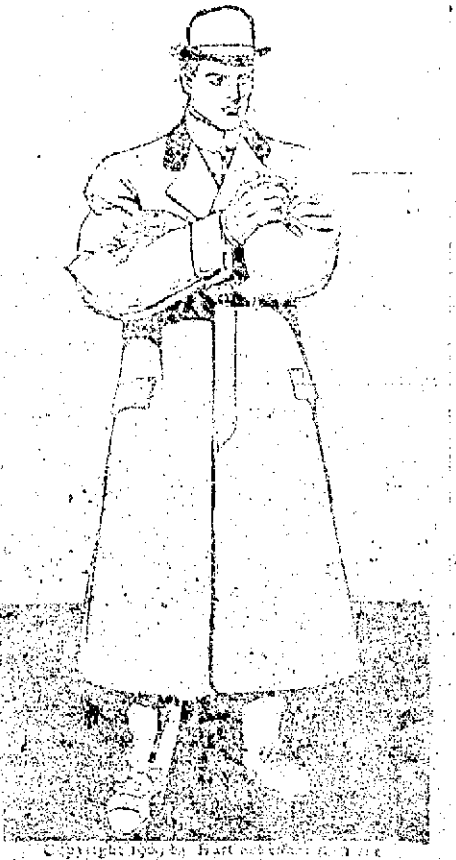

We suffer from Rheumatism and we get rid of it we must make our minds to subject our systems to a proper course of treatment for life. The only way to cure all of Rheumatism is to remove the cause, expel the irritating uric acid from the blood; every other kind of treatment has provided a cure. S. S. S. cures Rheumatism as it is the greatest of all blood purifiers. This medicine goes down the circulation and expels every particle of the sour, inflammatory acid which is the one great cause of the disease. The cure can be hastened by a little care and denial by the patient. In the place do not let anything interfere to prevent your taking S. S. S. daily and according to directions; guarded in your eating, because attack of indigestion will always aggravate the symptoms of Rheumatism. Do not expose yourself to cold and inclement weather any more than is necessary. When S. S. S. had time to rid the blood of the acid and strengthen the system, these little restrictions can be off. This simple course has cured thousands of cases of Rheumatism. Book on Rheumatism and any other advice free. S. S. S. is sold everywhere.

**THE CONDUCTOR'S LAST REFUGE**

From the Technical World.  
Heretofore, the conductor of a train has been required to do all sorts of things, many times a day when the question of a child's age arises. This problem has just been solved by the Cincinnati Car Company in a manner that would make the author of the book of Proverbs look on his notes as a shrewd judge.  
By careful computation it was ascertained that the average height of a 5-year-old is 41 inches, and accordingly a mark was painted at that height from the floor in their cars. Hereafter there can be no insinuations regarding the veracity of parents who desire to save that nickel. If dispute arises, the conductor is marched up to the line height mark and the answer is obvious.

## A RECALL PETITION

AT LAST the advocates of the Mayor's removal have secured their courage to the sticking point and filed a recall petition. Rather, they have found somebody to file it for them, for the individual whose name is signed to the affidavit has not hitherto been publicly identified with the anti-Avery movement. But somebody had to be "the goat," and one has been found.

The Charter provides that a recall petition, to be valid, must be signed by electors equal in number to at least 30 per centum of the last preceding vote cast for all candidates for Mayor. The total number of votes cast for mayoralty candidates in the July, 1909, election was 6,194. Therefore, 30 per cent of this number, or 1,858 voters, must sign the present recall petition before another election can be ordered.

Perhaps there are that many voters in Colorado Springs who are willing to involve the city in the expense of a special election and the hubbub of a long-continued campaign, but we are inclined to doubt it. At any rate, the thing should not be done, for it is contrary to reason and commonsense.

Consider the case without prejudice. Nobody contends that Avery is a perfect Mayor, or that he possesses extraordinary ability of any sort. But his supporters do contend, and nobody disputes them, that he is absolutely honest and that he does not wear the collar of any individual, corporation, or political machine. His enemies magnify certain obvious temperamental faults which in themselves surely are not vital, though they are unquestionably extremely disagreeable. These are his inordinate personal vanity, his obstinacy, and his inability to restrain a somewhat irritable temper. But we insist that these things are not vital; that they are not in themselves sufficient grounds for the Mayor's removal from office. We believe that Avery measures up pretty well to the standard of our past mayors, and that the present agitation against him has its origin in

(1) The realization by his personal and political enemies that the recall provision of the Charter affords them an opportunity of getting his scalp, and

(2) The desire of certain of his enemies for personal advancement at his expense.

Three or four years ago before there was such a thing as the recall in the fundamental HIS JOB. At law of Colorado Springs, nobody would have thought of suggesting that a Mayor ought to be removed from office for such petty delinquencies as Avery has been guilty of. But now, with the recall in effect, it is an easy thing for every Tom, Dick and Harry who feels aggrieved because Avery wouldn't give him a job, or for any envious office-seeker, or partisan newspaper, to advocate his removal from office as a public necessity. It remains to be seen whether the people of Colorado Springs will listen to this sort of clamor.

It is worthy of note that the grounds on which the petitioner seeks Avery's removal are extremely vague. To charge him with "failure to enforce, impartially, the laws and ordinances" with "refusal to enforce the criminal laws of the city," or to allege that "his continuance in office is a detriment to the business interests and welfare of the city," is mere tommyrot, and the legal mind that framed this hazy indictment ought to know it. An unsupported charge of "incompetence and unfitness for office" may appeal to the prejudiced and unthinking, but it is not sufficiently specific to convince people with minds of their own. The charges of "usurpation of power," and "abuse of the appointive power" are likewise unsupported by facts. And when this Mr. Tiffany, whose name is signed to the petition, accuses the Mayor of "polluting and wasting water," and "failure to carry out the provisions of the Charter," perhaps it would be well for him to explain just what he means. The Gazette offers him unlimited space for his explanation, with the provision that he abandon the role of stoof-pigeon and plead his own case.

We think it will appear before long

that the movement against Avery has its origin in the personal ambitions of some of his opponents. At present they are keeping in the background. Through their mouthpiece, The Herald-Telegraph they suggest one possible candidate in opposition to Avery. Mr. Leonard E. Curtis, who, says the evening paper, "is being talked of as a likely candidate." But Mr. Curtis hastens to disclaim such candidacy in a letter in today's Open Parliament. Ave wish he would run for office in this town for it would be a pleasure as well as a civic duty for this paper to support him, but like most other citizens of his caliber he has sufficient reasons for not doing so, and that's all there is to it. But perhaps the real anti-Averyites will not be so modest. Let's wait and see how quickly their disclaimers are forthcoming after they have been "prominently mentioned" by their twilight organ.

## OPEN-PARLIAMENT

**MR. CURTIS DISCLAIMS.**  
To the Editor of The Gazette:  
I notice a statement in this evening's Telegraph that I am "talked of as a likely candidate" for the office of mayor at Mayor Avery's disposal. While I find greatly honored that anyone should even talk of me in this connection, I desire to say that my business obligations are such as to make it entirely out of the question under any circumstances, for me to accept such a nomination. In any event, even if I were free and the people of the city should wish me to take the office of mayor, which I regard as a very reputable position, I should much prefer to do what I can to further the interests of the community merely as a private citizen rather than take any public office.

**LEONARD E. CURTIS.**  
Colorado Springs, Nov. 2.

**FROM OTHER PENS.**  
CAMPAIGN TO REDUCE INFANT MORTALITY  
From the Panhandle Post.  
A campaign that is national in scope will soon be inaugurated by the National Congress of Mothers to reduce infant mortality, and to better the condition of the child morally, mentally and physically. This year's campaign will assume the form of a "war" against the features of the child which are the cause of infant mortality, and where it is found possible of motherly duties in order to reduce the infant mortality rate.

**BE LOGICAL.**  
From Life.  
A murder trial began at Los Angeles. Three men are accused of having shot a newspaper building, the destruction of which cost 21 lives. They are also accused of blowing up about 60 other buildings in various parts of the country, all of which had been, or were being, erected otherwise than as ordered by the structural iron workers union.

**MR. TAFT TO WOMEN VOTERS.**  
From the Pittsburgh Courier.  
In his little journey through the world President Taft appears in brilliant and clear light of homely common sense. When his extraordinary address. Thus, as he was about to leave California, he had a few words to say to the women of the Golden State concerning the right of franchise, which has been a long and arduous struggle.

**THEY WANT HIS JOB.**  
At law of Colorado Springs, nobody would have thought of suggesting that a Mayor ought to be removed from office for such petty delinquencies as Avery has been guilty of. But now, with the recall in effect, it is an easy thing for every Tom, Dick and Harry who feels aggrieved because Avery wouldn't give him a job, or for any envious office-seeker, or partisan newspaper, to advocate his removal from office as a public necessity. It remains to be seen whether the people of Colorado Springs will listen to this sort of clamor.

**Sunflower Philosophy.**  
I never put off till tomorrow the things that were with me today. That policy always brings sorrow and drives me mad. I have a habit of putting off today's business until tomorrow. That policy always brings sorrow and drives me mad. I have a habit of putting off today's business until tomorrow. That policy always brings sorrow and drives me mad.

**PROCRUSTATION.**  
I never put off till tomorrow the things that were with me today. That policy always brings sorrow and drives me mad. I have a habit of putting off today's business until tomorrow. That policy always brings sorrow and drives me mad.

life is a rough, weary way, are fellows too fond of postponing, and letting things slide every day. If I stack up high with the banker, and have a few rocks of my own, the reason is this: I don't bunk to fiddle around and postpone. This evening the husband was talking—a feminine labor that's wise—and all of my innards were aching to sample a few of her pies. "Don't touch them," she cried, "all tomorrow," and then I rebuked her and cried, "That policy means but to borrow a damper to put on your pride. My motto, my dear—well you know it—is: 'Never postpone. Don't wait.' So just watch your splay-footed poet do things to a pair of your pies!"

# Creating The Wrong Disease

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases; for which he, assuming them to be such, prescribes his pills and potions. In reality they are all only symptoms caused by some weakness or derangement of the organs distinctly feminine. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better by reason of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

**Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots without the use of alcohol and is perfectly harmless in its effects in any condition of the female system.**

As a powerful, invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and female women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

Every woman ought to possess Dr. Pierce's great book, the People's Common Sense Medical Adviser, a magnificent thousand-page illustrated volume. It teaches mothers how to care for their children and themselves. It is the best doctor to have in the house in case of emergency. Over half a million copies were sold at \$1.50 each, but one free copy in paper covers will be sent on receipt of 21 cent stamps to pay the cost of mailing only. # CRIPPLE CREEK MINES

Special to The Gazette.  
CRIPPLE CREEK, Nov. 3.—Record production for the present year was made in October from the properties of the Vindicator Consolidated Gold Mining company, situated on Bull hill. In all 104 tons of ore were loaded out from the six active shafts, as follows: No. 1 or main Vindicator, 62 cars, No. 2 shaft, Vindicator, eight cars, No. 6 Vindicator, two cars, and No. 11 Vindicator, four cars. In addition 33 cars of ore were hauled out from the Hull City and Glorieta shafts on the north end of the estate. This territory was originally owned by Independence Town and Mining company. Estimating the car contents at 30 tons—a low estimate—the tonnage produced exceeded 3,000 tons. The ore mined at the main of No. 1 shaft is estimated at \$30 a ton, and is mined on company account. The ore shipped by lessees from the Nos. 2, 6 and 11 shafts is estimated at \$25 a ton, with the Hull City and Glorieta ore estimated at \$20 per ton. On these estimates the gross value of the Vindicator company's output for October will not fall short of \$30,000. The company paid its fourth quarterly dividend of \$45,000 at the rate of 3 cents per share in October.

**Granite Gold Mining Company.**  
The production made from mines of the Granite Gold Mining company for October totaled 31 cars or about 2,400 tons. The properties operated under lease and shipping were the Granite, Dillon, Monument and Gold Coin mines on Battle mountain. The Upper Granite leads with 33 cars. The average value per ton of ore marketed should be close to \$30 a ton. The company's mines are operated under the leasing system.

**Modoc M. & M. Co.**  
Due to development work in progress the output from the Ocean View mine, owned by the Modoc Mining and Milling company, situated in the saddle between Bull hill and Battle mountain was light. But six cars, or about 200 tons, were consigned to the Pueblo smelter. Of the shipments made four cars were mined on company account and two by lessees.

**Cresson Consolidated.**  
The October production made from the main shaft of the Cresson Consolidated Mining and Milling company on Raven hill amounted to 1,500 tons. The ore averaging about \$30 a ton. The profit was as high as when heavy tonnage was made. The Cresson company is paying dividends but its affairs are not made a matter of public record.

**Mining Deed.**  
By deed under the above caption the Franklin lode in this district has been conveyed to the Franklin Mines company by William O'Brien. The consideration named in the deed was a nominal one.

**Locations.**  
Location certificates for the Agnes, Dougherty and Maxwell lode mining claims in the Woodland Park mining district of Teller county have been filed for record by William Brasse.

# NEW YORK MARKET

NEW YORK, Nov. 3.—The aggressive buying of stocks, which raised prices rapidly early in the week, was largely suspended today. Quotations moved uncertainly, ranging at times above yesterday's closing and again below it. During most of the day, however, prices were higher. The demand for the high-priced dividend-paying stocks was heavier, while investment buying of this nature helped to sustain the market. Reading rose 3/4 points, to 145 1/2. It was the strongest among the principal stocks, and was unaffected by the recurrent intervals of depression elsewhere in the market. Canadian Pacific and Erie were exceptionally strong. American Smelting halted after its swift advance. For a time it sold at 60, the highest of the movement, but it fell back and closed with a loss. United States Steel, apparently, has resumed its normal place in speculation, showing no further effects of the dissolution suit. London again took profit here. Its transactions ran to about 15,000 shares, chiefly on the selling side, with the bulk of the trading in United States Steel and Amalgamated Copper. Announcement of the formation of a corporation with \$55,000,000 capital stock, the largest of the kind to be floated for some time, was accepted as a further indication of better conditions. Trading of bonds continued today. Total sales, par value, \$2,946,000. United States bonds were unchanged on call. Quotations furnished by Oils & Hough.

Miss Ethel Perrin, aged 23, Washington avenue, Colorado, died from tuberculosis at Bethel hospital yesterday at 12:30 p. m. Miss Perrin formerly lived in St. Clair and the body probably will be taken there for interment.

Mr. and Mrs. M. J. McCaffrey and son of St. John have recently arrived in this city and are making their home here. Mrs. McCaffrey is a daughter of A. C. Cuthbert who is residing on the coast.

for said the question to be determined is whether the men in question were legal voters and whether they became residents of the city in good faith. As yet the ballot boxes from four precincts have not been counted.
